

Lindsey Hopkins Technical College

Marine Service Technologies

Program Outlook:

The purpose of the Marine Service Technologies Program is to prepare students with the technical knowledge and skills for employment or advanced training in the marine service industry. Hands-on training combined with laboratory and classroom experiences gives the student a full understanding of basic four-stroke and two-stroke cycle engines, fuel, cooling, lubrication, charging, and capacitor discharge ignition systems.

Program Content:

- Service, repair and overhaul of four-stroke and two-stroke cycle engines and outboard motors
- Service and repair of boating accessories
- Electrical, fuel and power transfer systems
- Ignition, cooling, lubrication and drive systems
- Boat and trailer rigging
- Training in communication, leadership and human relations
- Safety Procedures
- Employability Skills

Entrance Requirements:

- Application
- Interview with a counselor
- Adult students must be at least 18 years of age and not attending high school
- Assessment in reading, math and language
- Fees for supplies and textbooks required
- Background Screening

Length of Program:

This program is a planned sequence of instruction consisting of six (6) Occupational Completion Points (OCPs). The average length of this program is 1350 hours (approx. 16 months) for adults attending full-time. Actual time is dependent upon enrollment status (full-time/part-time) and the length of time the student requires achieving competencies.

Financial Aid is available for those who qualify.
